October 2018

Investor presentation

History of MOEX

1992
**Moscow Interbank
 Currency Exchange
 (MICEX)** established

1997
**National Settlement
 Depository (NSD)**
 established

2006
**National Clearing
 Centre (NCC)**
 established

2012
 Launch of **Central
 Securities Depository
 (CSD)**

2013
The Central Bank of Russia
 becomes mega-regulator of
 financial markets

Currency → Government securities → REPO → Corporate securities → Derivatives

→ Commodities → ...

1995
**Russian Trading
 System (RTS)**
 established

1997
MICEX Index
 launched

2011
 Merger of **MICEX** and **RTS**
 – **Moscow Exchange
 (MOEX)** established

2013
IPO of Moscow
 Exchange (MOEX)

2013 & onwards
**Persistent
 development** of
 financial infrastructure

Operates in one of the worlds' largest economies and covers all major asset classes

Commitment to transparency and high standards of corporate governance

Uniquely diversified and vertically-integrated business model

Established track record of solid financial performance and attractive dividend policy

Resilient in alternating macro conditions, features low-cost product scalability

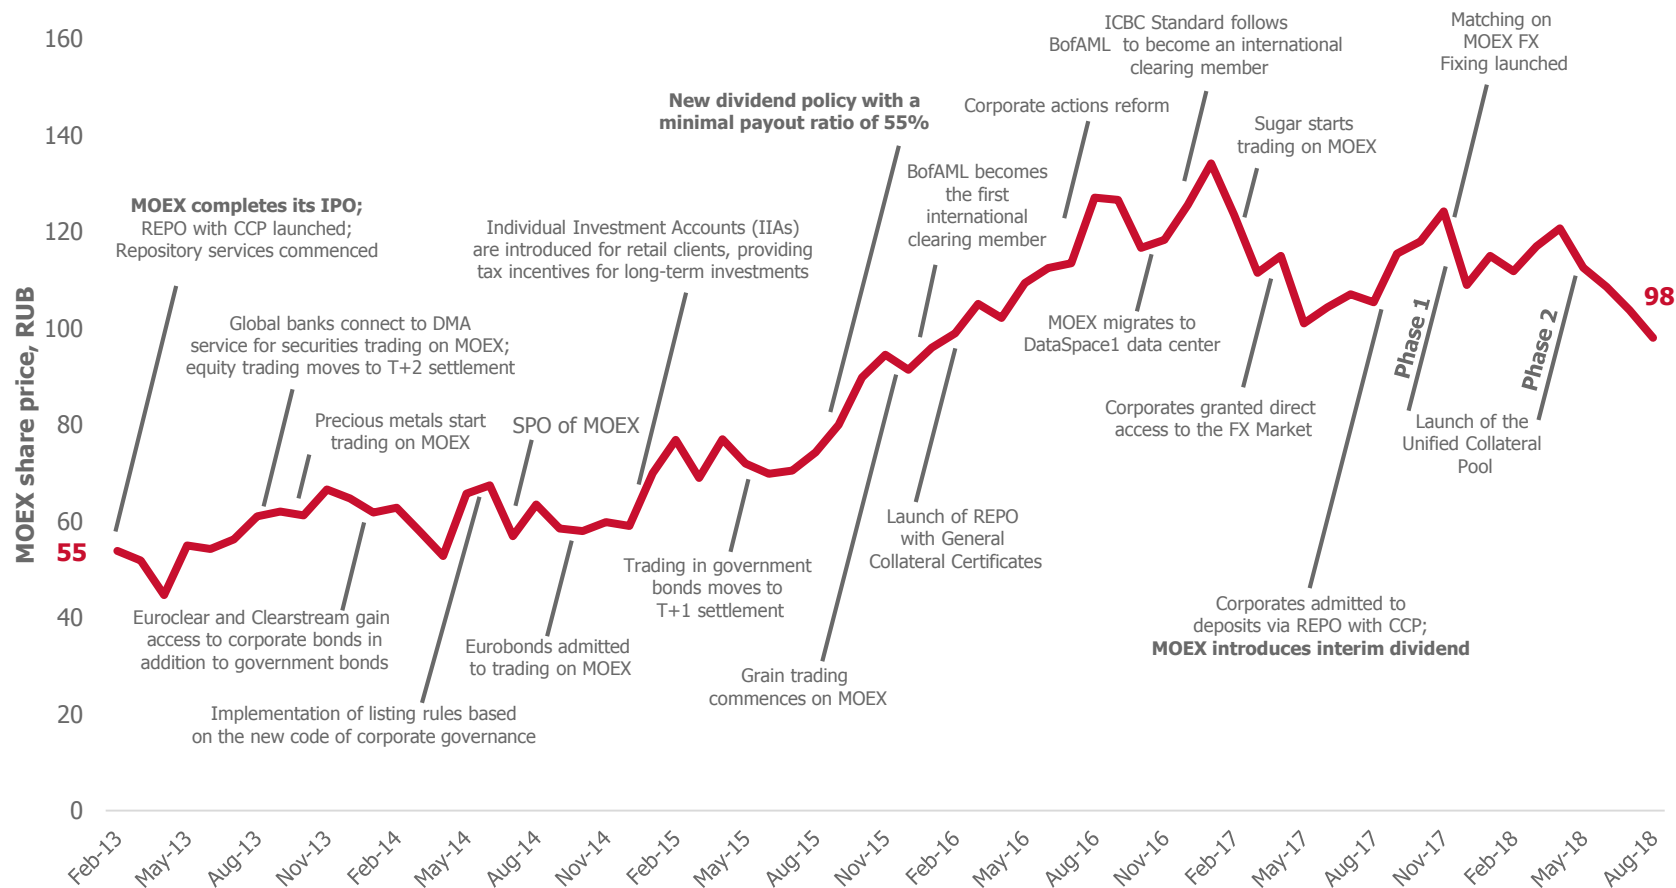

Successfully implemented infrastructure and regulatory reforms put MOEX on par with global peers

2Q 2018 update

On-exchange market: capturing the entire value chain

- ✓ MOEX captures the **entire value chain** for end-customers, offering a one-stop shop for listing, risk management, market data, multi-asset trading, clearing, settlement and custody.
- ✓ MOEX is **strategically positioned** to benefit from the development of Russia's capital markets in the coming years.
- ✓ Fully **vertically integrated infrastructure** with regulation and oversight by the Bank of Russia (CBR).
- ✓ Single-tier clearing system requires all participants to provide **eligible collateral** to trade any asset class, while pre-trade risk checks forestall any "fat fingers"/"flash crash" problems.
- ✓ The market has always been open for competition (except the CSD), but entry barriers are very high due to MOEX's post-trade infrastructure and **on-exchange market efficiency**. OTC is the key source of competition.
- ✓ Investors trade through brokers and banks, which are **licensed** locally and have access to MOEX markets. Foreign investors have **DMA, SMA and ICM services** at their disposal.

Robust post-trade infrastructure

Central Counterparty (CCP) and Central Securities Depository (CSD)

CLEARING

National Clearing Centre (NCC) proprietary funds (capital)¹

CCP cleared value based on ADTV (8M 2018)

RUB bln

FX	1,406
Repo with CCP ²	945
Derivatives	337
Fixed income	124
Equities	43
Commodities	0.5

Comments

- Well-capitalized NCC acts as a CCP for all asset classes
- Solid risk management has ensured smooth operations amid high volatility
- The only qualified CCP in Russia. The status was granted by the CBR in 2013
- BBB** local currency rating from Fitch – one notch higher than Russia's sovereign rating

SETTLEMENT & DEPOSITORY

National Settlement Depository (NSD) proprietary capital³

Assets on deposit⁴

Comments

- NSD is the Central Securities Depository in Russia
- Safekeeping and settlement services
- Collateral management services for repo transactions
- Repository for OTC trades
- Links to Euroclear and Clearstream for Russian bonds and equities
- AA-** rating from Thomas Murray⁵

2Q 2018 update

Best-in-class corporate governance standards

- ✓ Out of 12 members of the 2018-2019 Supervisory Board, 7 are independent (58% vs a minimum threshold of 20%¹)
- ✓ Four of the six Supervisory Board committees are chaired by independent directors
- ✓ The 2018-2019 Supervisory Board does not include any executive directors
- ✓ MOEX was a pioneer to adopt the new criteria of Director Independence aligned with the new Corporate Governance Code

	Supervisory Board members	Strategy Planning	Audit	Nomination and Remuneration	Budget	Technical Policy ²	Risk Management
	Anatoly Braverman First Deputy CEO at Russian Direct Investment Fund	✓			✓		✓
	Andrey Golikov - Deputy Chairman Deputy Chairman of the Supervisory Board at Moscow Exchange	✓			Chair	✓	
	Valery Goreglyad Chief Auditor at the Bank of Russia						✓
	Yuriy Denisov Chairman of the Supervisory Board at National Clearing Centre	✓					Chair

Competitive strategy 2015-2020: key pillars (1)

	Strategy	Drivers and initiatives
Equities	Aggressive growth: development of the equity market	<ul style="list-style-type: none"> ✓ Benefits from infrastructure put in place, tax and regulatory reforms (T+2, CSD and access of ICSDs, IIA) ✓ Growth of the retail investor base ✓ New listings and IPOs, repatriation of capital ✓ Further simplification of access for international investors (SMA, ICM)
Fixed income	Aggressive growth: bonds to substitute bank loans as a funding tool	<ul style="list-style-type: none"> ✓ Development of short-term and ultra short-term bonds, securitization ✓ Easier access to the bond market for corporates ✓ Growth of the retail investor base ✓ Benefits from completed reforms (shift to T+1 for OFZs, large block auctions, ICSDs) ✓ Development of an OTC platform
Derivatives	Aggressive growth through new asset classes and tariff reform	<ul style="list-style-type: none"> ✓ Tariff reform to increase effective fees ✓ Development of commodity derivatives ✓ Approval of CFTC registration application in order to permit access for US market participants ✓ Options market development ✓ Synergies with spot markets via a unified collateral pool ✓ OTC derivatives clearing
Market data	Aggressive growth through enhancement of the product offering	<ul style="list-style-type: none"> ✓ Growth of market data sales ✓ Improvement of data dissemination: development of a real-time and non-real time data platform ✓ Development of the corporate information center ✓ Development of the pricing center ✓ Expansion of the repository offering

Competitive strategy 2015-2020: key pillars (2)

	Strategy	Drivers and initiatives
FX Market	Protecting market share through further expansion	<ul style="list-style-type: none"> ✓ Development of international clearing membership ✓ Direct access of corporates to the market ✓ Development of SMA services
Money Market	Protecting market share through further product development	<ul style="list-style-type: none"> ✓ Further enhancement of the existing product portfolio – collateral management services, repo with the General collateral pool ✓ Direct access of corporates to repo with CCP in the “net creditor” mode
Depository services	Steady growth via development of new services	<ul style="list-style-type: none"> ✓ Corporate actions reform ✓ Launch of the corporate information center ✓ Expansion of the repository offering
Treasury business	Gradual replacement of NII with F&C income	<ul style="list-style-type: none"> ✓ Reduction of NII’s contribution to revenue through implementation of the single collateral pool as a fee-based service, including single account, single limit transfer, netting, cross-margining functionality
IT	Ongoing enhancement of IT systems	<ul style="list-style-type: none"> ✓ Focus on reliability of hardware ✓ Improved processes of software development and installation ✓ Initiatives to foster fintech startups that develop technologies complementary to MOEX’s product offering

Plans 2018

FX Market

Derivatives Market

Equities and Fixed Income Markets

- Development of SMA: introduction of pre-trade controls
- Development of ICM
- Tradable FX Fixing instruments for international participants
- Declaration of adherence to FX Global Code
- Launch of ICM: remote clearing membership for international banks
- Launch of SMA: introduction of pre-trade controls and cancellation of orders on disconnection
- Onboarding of international HFT clients
- Development of SMA
- Launch of ICM
- Onboarding of international HFT clients

Local institutional investors: the potential of **pension funds**

Pension assets in Russia

RUB trn

Pension system asset allocation dynamics¹

Key highlights of the pension reform

- Bank of Russia became a regulator of the pension system in 2013
- Adopted changes in non-state pension fund regulation:
 - “One year non-loss” rule was abolished
 - Investment horizon of NPFs was extended to 5 years
 - Customers are now incentivized to stay with the fund for not less than 5 years
 - Guarantee fund mechanism (similar to the Deposit Insurance Agency in the banking system)
 - New allocations to NPFs remained under moratorium until 2019, which reduced growth potential and left room for organic growth only

Retail money: aiming to grow the culture of investing

Russians hold majority of savings in banks and cash¹

Number of retail broker accounts as % of population²

Newly opened retail accounts of first-time (unique) clients

thousand ■ Individual investment accounts (IIA) as the first broker account
 ■ Other broker accounts as the first broker account

Net change in the number of retail accounts

thousand ■ Individual Investment Accounts
 ■ Other broker accounts

Retail clients: a growing segment of the Russian financial market

Number of active retail client accounts

Equities Market

Derivatives Market

FX Market¹

Recent regulatory changes:

- Introduction of **individual investment accounts** for private investors since 2015: more than 400,000 accounts opened as of end of August 2018
- **Tax breaks** on capital gains on securities held for more than 3 years (up to RUB 9 mln for securities purchased after 1 Jan 2014)
- Retail investors allowed to **remotely open a brokerage account**. This simplifies the process for retail investors in Russia's far-flung regions

Bond market – why we are strong believers

Ageing fixed assets require long-term investments

Accumulated depreciation as % of fixed assets

Breakdown of bond issuers¹ by industry

Growth of outstanding local bonds

RUB trn Regional Government Corporate

Local bonds vs Eurobonds of Russian corporates²

RUB trn

“Bondization”: growing a deeper Bond Market

Completed in 2017

- **Issuance documents constructor** for exchange-traded bonds was implemented in the user account, it reduces the time for preparation of each document to 15-20 minutes
- Bonds can now be admitted to trading without a prospectus
- 60 new exchange-traded bond programs were registered in 2017 (+56% vs 2016)
- **On-exchange bookbuilding**
- **Increase of OFZ liquidity** due to market-maker programs and change in tick size (+32% trading volumes in 2017 vs 2016)
- **Cross-product OFZ spreads**

Plans for 2018 and beyond

- OTC fixed income trading platform
 - Additional features not offered through electronic order book
 - MiFID II favors electronic OTC platforms due to transparency
 - The initiative takes advantage of data on ownership of more than 15,700 security issues kept by NSD
- Increase of market liquidity:
 - Transactions with bonds ex-date (coupon)
 - Further development of exchange bookbuilding

Plans 2018+

- Attract 30-50 new corporates to the FX and Money Markets
- Expand the range of currencies for CCP Deposits: USD (already available), EUR and CNY
- Extend the term of CCP Deposits' via ramp up of liquidity beyond 7d – up to 3m
- Introduce early termination of CCP Deposits with partial rate retention
- Introduce market-making and rebates to facilitate on-exchange FX trading

Indicative Quotation System on the Derivatives Market

As the liquidity of derivatives' underlying assets gradually decreases ...

...the ratio of derivatives' volumes to spot trading volumes declines rapidly – like a *gap down*

=> Trading in derivatives on a less liquid underlying can garner a greater share of this underlying's spot volumes

- ✓ Allows to trade illiquid contracts without freezing collateral before a counterparty accepts a trade order
- ✓ Seeks to improve liquidity in derivatives with liquid underlying assets
- ✓ Launched on 23 April 2018 for options only
- ✓ There are plans to introduce IQS for illiquid futures contracts

Indicative Quotation System
aims to unlock the potential of less liquid contracts

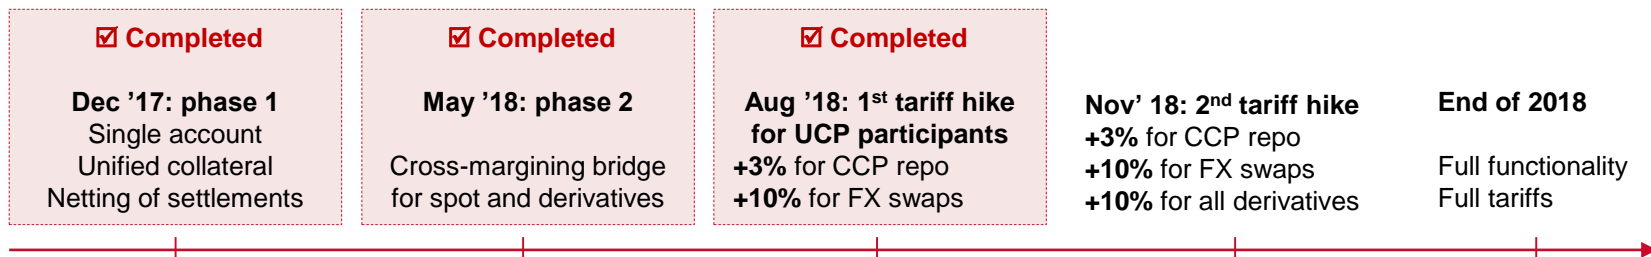

NCC is now regulated as a clearing organization and a CCP

Target capital	Target capital in FY 2018 that complies with new regulatory requirements: RUB 55 bln
New regulation requires:	
Capital adequacy	At all times NCC's own capital shall exceed the sum of "skin in the game", the minimum capital to maintain 11% of RWA and a reserve of 75% of annual operating expenses
Adequacy of total resources	At all times the sum of "skin in the game" and the guarantee fund shall exceed potential losses in the event of default of the two largest counterparties
Adequacy of initial margin	Price fluctuations of each asset shall not exceed the initial margin amount in at least 99% of cases of price changes
Liquidity ratio	The amount of liquid assets of the CCP at any time shall exceed the amount of potential losses in the event of default of the two largest counterparties
Collateral concentration	A certain type of asset is eligible as collateral as long as its addition does not exceed 25% in total assets placed as collateral by market participants

Unified Collateral Pool: strategic project completed

Timeline and latest developments

- UCP usage is picking up, now accounting for over 5% of total trading F&C; the 29 UCP participants represent 50%+ of total F&C
- UCP accounts' share of F&C is roughly similar across all participating markets – we see no laggards here
- Early UCP users are professional market participants active in the FX Market, particularly in FX swaps
- This means that we see a larger share of the FX Market in UCP trading volumes compared to total volumes
- Hence, the mix of products traded via UCP accounts does not match that of the total volume yet as clients are testing the service
- We'll be able to verify estimates of UCP effect once the mix of products traded via UCP comes into line with that of the total volume
- UCP balances are 5% of total vs. F&C at 6% due to higher presence of professional participants with optimized balances

Number of market participants with UCP accounts (as per end of period)

Share of F&C from UCP accounts as % of total trading F&C

E-voting and Blockchain implemented on Moscow Exchange

E-voting for equity and bond holders

✓ NSD has developed **e-voting platform for shareholders: www.e-vote.ru**

✓ **Sberbank, MOEX, Alrosa** – the first Russian companies to provide shareholders with the opportunity to remotely participate in shareholder meetings (via online voting) in 2017

✓ **E-voting for bondholders** has been implemented and successfully tested

Blockchain technology

✓ NSD used a **blockchain-based settlement platform** to complete an inaugural placement of a RUB 500 mln bond issue in 2017

- Interest and finance income includes Interest and other finance income, Interest expense, Net loss on financial assets available-for-sale, Foreign exchange gains less losses
- Average overnight rate for the period
- Based on average daily investment portfolio sources for the period according to management accounts

CAPEX and OPEX: 2017-2018

Capital expenditures

- In 2017, CAPEX was RUB 1.94 bln, including intangible asset additions of RUB 1.45 bln and fixed asset additions of RUB 0.49 bln.
- **In 2018, capital expenditures are expected to be RUB 2.0-2.2 bln**, in line with CAPEX for FY 2017. The split between maintenance CAPEX and CAPEX allocated to new projects is expected to be roughly equal (55% new projects/ 45% maintenance capex).
- 2018 CAPEX estimate does not include Ecosystem investments.

Operating expenses

- The actual growth of OPEX in 2017 was 10%, below the latest guidance of 11-13% as a result of:
 - More conservative hiring
 - Stronger RUB
- **In 2018, growth of operating expenses is expected to be in the range of 7-9%.**

Trading volumes

Fee & commission income

Trading volumes of repo with CCP

Comments

- Trading volumes increased 1.1% YoY due to growth of deposit and credit operations (+65.0% YoY) as well as CCP repo inclusive of GCC (+4.9% YoY).
- F&C income increased 24.6% supported by (1) improvement in the mix with a larger share of higher-priced GCC and CCP repo, (2) extension of average repo term, (3) lower market concentration and (4) accruals from long-term repo trades of past periods.
- The average term of on-exchange repo was 3.1 days, up from 2.7 days in 2Q 2017 and flat QoQ (1Q 2018: 3.1 days).

Assets on deposit (average for the period)

Fee & commission income breakdown

2Q 2018

Fee & commission income

Comments

- F&C increased 9.8% YoY on the back of an increase in average assets on deposit (up 21.2% YoY).
- The growth in assets on deposit was universal across all asset classes. Corporate bonds on deposit grew 27.1% YoY, OFZs (federal government bonds) grew 15.6% YoY and equities grew 18.1% YoY.
- Income from safekeeping remained strong, fees from repo with collateral management services through NSD declined due to lower volumes.
- The latter explains the difference between growth rates for assets on deposit and F&C income for the category.

Comments

- F&C was up 8.3% YoY on the back of more active spot trading.
- Swap trading volumes declined 5.9% YoY, while spot trading volumes increased 22.2% YoY, driven by increased FX volatility.
- The growth in EUR/RUB trading volumes was the most pronounced of the Market's major currency pairs, with 67.6% YoY growth in spot and 5.7% YoY growth in swap.
- CNY/RUB volumes showed impressive growth: 38.3% YoY in spot and 329.3% YoY in swap, albeit the pair's share in total FX volumes remains below 1%.
- A new technological platform was launched on the FX Market. The platform separates trading and clearing, thus improving reliability, scalability and performance.

Comments

- F&C grew 27.4% YoY, while total trading volumes increased 5.8% YoY. Options trading volumes declined 6.5% YoY.
- Trading volumes of FX and index derivatives declined 2.6% YoY and 13.9% YoY, respectively.
- On the flipside, trading volumes of contracts on equities and commodities grew 22.3% YoY and 65.5% YoY, respectively.
- F&C was supported by improvement in the mix in favor of higher-priced contracts on commodities and equities.
- The Derivatives Market posted all-time high quarterly income, returning to the 4th place among F&C contributors and reclaiming the position from the Fixed Income Market.

RUB mln

Primary market

RUB trn Overnight bonds Corporate, municipal and other bonds (excl. overnight) Government and CBR bonds (OFZ, OBR)

Comments

- F&C grew 9.8% YoY, supported by strong placements and secondary trading.
- Trading volumes were up 18.9% YoY. Secondary trading volumes grew 12.3% YoY, and primary placements (excl. overnight bonds) rose 64.2% YoY.
- The discrepancy in growth rates for trading volumes and F&C is explained by (1) higher YoY share of government and CBR bonds in the primary market and (2) emergence of shorter-term OBR and corporate bonds (NOT overnights).

IT Services and Listings

IT Services and Listings¹

RUB mln

- Other fee and commission income
- Listing and other fees related to Securities Market
- Information services
- Sale of software and technical services

Comments

- Listing and other service fees were RUB 80.3 mln, down 30.3% YoY due to a larger average size of issues.
- Sales of data and information services contributed RUB 189.5 mln to fee income, down 0.8%.
- Income from sales of software and technical services was RUB 175.6 mln, up 6.7% YoY.
- Other fee and commission income was RUB 96.4 mln, up 5.0 times YoY. This line includes contribution from the Commodities Market.

Comments

- Trading volumes increased 23.7% YoY. F&C rose by 34.0% YoY to a new record high.
- Growth in trading volumes was explained by higher index level and slightly higher velocity on a YoY basis.
- The average value of MOEX Russia Index grew 17.2% YoY and stood at high values despite the end of the dividend season.
- The methodology for calculating tick sizes on the Equities Market was changed to align tick size calculation with MiFID II/MIFIR regulation and improve the market microstructure.

Headcount

Major expense items

RUB mln	2Q 2017	2Q 2018	Change YoY
Personnel expenses	1,477.9	1,526.3	3.3%
D&A and IT maintenance	997.8	1,123.1	12.6%
D&A & IT maintenance adjusted for change in amortization schedule	997.8	1,038.3	4.1%
Professional services – growth driven by grain storage costs	107.4	147.6	n.m.
Remaining administrative expenses¹	631.0	705.6	11.8%
Total OPEX	3,214.1	3,502.6	9.0%
Adjusted total OPEX ²	3,214.1	3,417.8	6.3%
Cost (adj.) / Income Ratio	32.7%	33.6%	0.8 p.p.

Comments

- OPEX for the quarter was RUB 3.50 bln, up 9.0% YoY. Administrative and other operating expenses were up 13.8% YoY to RUB 1.98 bln.
- Personnel expenses rose by only 3.3% YoY to RUB 1.53 bln.
- Administrative expenses beyond D&A, IT maintenance and professional services increased by 11.8% YoY on the back of costs associated with the development of new projects.
- Professional services' growth is driven by grain storage costs on the back of significant growth in grain swap volumes. This business was at inception stage in Q2 2017, hence the comparison is not meaningful due to the low base effect.
- OPEX excluding D&A expenses was up 7.2% YoY
