

## **APPROVED**

by Moscow Exchange  
order No. МБ-II-2021-3846 dated 27 December 2021,

# **MARKET MAKING PROGRAM MOEX Global (foreign securities)**

## **Section I. Terms and definitions**

**Sufficient trade value** – the total trading volume generated by the Market Maker for the Instrument during one Trading Day to meet its obligations under this Program and be released from the obligation with regard to the Instrument.

**Instrument(-s)** – security issue(-s) indicated in the Table given in Appendix 1 hereto.

**Passive trade** – a trade by the Market Maker in which the Market Maker’s order number is less than the number of the Opposite Order and the Market Maker’s order size is not less than the Minimum Order Size for the relevant Instrument. Trades executed based on the Market Maker’s orders and Opposite Orders placed on behalf of the same Market Maker or a Client are not included in the calculation of the total passive trading volume to determine the remuneration of the Market Maker.

**Quote maintenance period** – the time during which the Market Maker must maintain two-way quotes according to the Program terms and conditions.

**Program** – the “MOEX Global” Market Making Program

**Trading Day** – a day on which the Program Instruments are available for trading on MOEX’s Equity & Bond Market in the trading modes specified in the Program.

Terms not defined herein shall have meanings ascribed to them in the Equity & Bond Market Maker Rules.

## **Section II. Parameters and terms and conditions of Market Maker obligations**

2.1. The Market Maker which has joined this Program must fulfill obligations under this Program as set out in the Agreement, in the T+ Central Order Book of MOEX’s Equity & Bond Market with settlement in Russian Roubles, during the Main and After-Hours (Evening) Trading Sessions.

2.2. Parameters of the Market Maker obligations are set per Instrument and specified in the Table given in Appendix 1 hereto.

2.3. The Market Maker is considered to have fulfilled its obligations specified in paragraph 2.2 above on a Trading Day only if it has fulfilled the obligations on that Trading Day with regard to at least 30% of all Instruments covered by the Program subject to at least one of the following conditions met in respect of each Instrument(-s) simultaneously in all periods specified in column 3 of the Table for which all parameters have been set:

- parameters of the obligations specified in columns 4 and 5 of the Table were met during the period specified in column 7 of the Table.

- obligations specified in column 6 of the Table were met.

The Exchange uses every Market Maker ID to determine whether the Market Maker obligations have been fulfilled.

2.4. The Market Maker must fulfill obligations set out in paragraph 2.3 above for at least 70% of the Trading Days in the Reporting Period. In case of failure to meet this requirement in a Reporting Period, the Market Maker is considered to have not been fulfilled its obligations under this Program in that Reporting Period.

If the Program was in effect and/or the Market Maker ID(-s) were used in the Program for an incomplete Reporting Period, the Exchange uses the actual number of Trading Days on which the Market Maker must have operated instead of the total number of Trading Days in the Reporting Period.

### Section III. Calculation of the Market Maker remuneration for its activities under the Program

3.1. The remuneration of the Market Maker for its activities under this Program in the Reporting Period is the sum of remunerations per every ID(-s) which is calculated as per following formula:

$$F = \sum_n \sum_k \sum_i (FIX_i^k + COMM_i^k * R_i) + EC,$$

where

$F$  – the amount of the Market Maker’s remuneration for the Reporting Period;

$n$  – the sequence number of the ID announced by the Market Maker for the Program;

$i$  – the Instrument number determined by the number of the relevant row of the Table given in Appendix 1;

$\kappa$  – the number of the Trading Day on which the obligations were fulfilled under the  $n^{th}$  ID with regard to the  $i^{th}$  Instrument;

$$FIX_i^k = \left\{ MIN \left[ \frac{1000}{N}; 1000 \right] \right\} \text{ roubles}$$

$N$  – the amount of all IDs of all Market Maker in the Program under which the obligations were fulfilled for the  $i^{th}$  Instrument on  $k^{th}$  Trading Day;

$COMM_i^k$  – the volume-related fee paid by the Market Maker under the effective tariffs of Moscow Exchange and CCP NCC for Passive Trades executed in the  $i^{th}$  Instrument on the  $k^{th}$  Trading Day under the  $n^{th}$  ID based on orders with the size which was no less than the Minimum order size (column 8 of the Table) established for the relevant period of the Trading Day.

$R_i$  – the liquidity factor for the  $i^{th}$  Instrument (at the Program launch, it is set to 1 for all Instruments).

EC - Extra compensation for the provision of integrated IT service in case of exceeding the threshold for the number of orders. It is charged for orders by the owner of the Identifier<sup>1</sup> enrolled in the Program, for the calendar month preceding the Reporting Period for that compensation. EC shall be determined in accordance with the procedure approved by Order No. MB-P-2019-2916 dated 11 December 2019 by Moscow Exchange.

### Section IV. Program criteria for IDs

4.1. IDs with ADTV of RUB 300 million with regard to all stocks and depositary receipts over 2 (two) calendar months preceding the program application date are eligible for the Program. The Exchange may approve 3 (three) IDs that do not meet this ADTV requirement or any IDs that were used for market making for the Instrument included in the Program on other exchanges. If an ID that was accepted to the Program without its compliance with the ADTV requirement, was removed from the Program, another such ID can be admitted.

4.2. The Program allows only 1 (one) Trading Account and 1 (one) Short Client Code per an ID.

<sup>1</sup>Identifier is determined by the Rules of Market Maker Service on the Moscow Exchange Equity & Bond Market

## Appendix 1

## Market Maker obligation parameters

No	Ticker	Period of the trading day, MSK	Two-way quote volume*, units	Spread, %	Sufficient trade value*, units	Quote maintenance period**, min	Minimum order size*, units

\* In case of an instrument split (consolidation), the Two-way quote volume, Sufficient trade and Minimum order size values are increased (decreased) according to the corporate action terms (the appropriate coefficient K is applied).

The obtained fractional values of the new parameter's values are rounded according to the formula:

$$\text{New\_parameter\_value} = \text{MAX} (\text{FLOOR} (\text{old\_parameter\_value} * K); 1)$$

Where:

MAX - returns the largest value in a set of values

FLOOR - rounds a number down to the nearest integer

\*\* In case of early close of trading on NYSE and NASDAQ, the Quote maintenance period for the period from 19:00:01 to 23:49:59 MSK is set to 90 min for all Instruments.

\*\* For the time when the NYSE and NASDAQ markets operate under the US DST trading schedule, the quotation period for 16:30:01-18:59:59 is set to 90 minutes for all Instruments.
